

# Vehicle Finance Commission Disclosure for Tanner Electrics Limited

We Tanner Electrics Limited previously provided you with our Status Disclosure document that set out what services we are able to provide with regards to our role as a credit broker for motor finance applications. In that document we explained that we would receive a commission payment from a finance company if your application was successful and you decide to proceed. We also explained how this commission payment would be calculated.

## Based on the terms that we are proposing to the finance company on your behalf, the likely amount of commission we will receive will be £

This amount may change based on any acceptance criteria requested by the finance company or if the terms of the deal change between now and delivery of your vehicle (e.g. if the amount of credit you are taking changes.) The final amount of commission, however, will be confirmed to you before you are asked to sign the finance documentation.

### Customer Declaration

I confirm I have been informed of the amount of commission that Tanners Electrics Limited will receive if my application is successful.
